Re Waste Disposal Inc site

Phone call to Phil Campbell 74-990-5608

I called Phil to find out the status of the drums on his property and the fencing of this property.

The county has given him a two week extension on the removal of the drums. He received a quote of approximately \$8000 to determine ~~at~~ the contents of the drums and prepare them for removal. This doesn't include transport and disposal costs. He has no plans to begin spending this money.

He has a ~~date~~ for the construction of a fence and for gravel to prepare the property for use as an RV storage lot. He doesn't have the money to start this, but ~~has~~ tried to get a loan from a bank. The bank will not lend him the money until he gets approval from the City of Santa Fe Springs to use the land. A hearing on this is scheduled for March 10. If he gets the approval at that meeting, he said he would also try to borrow money to take care of the drums.
